

Fixed Capital Stock in the United States: Revised Estimates

- Fixed Nonresidential Private and Residential Capital, 1925-79
- Government-Owned Fixed Capital, 1959-79

REVISED estimates of fixed nonresidential private and residential capital in the United States for 1925-79 are shown in tables 1-8. They incorporate the revised national income and product ac-

count (NIPA) estimates of private fixed investment and government purchases of residential structures that were described in the December 1980 SURVEY OF CURRENT BUSINESS. With one exception,

NIPA revisions mostly affect the estimates starting in 1968. The exception affects the estimates for all years: Investment in hotels and motels, which previously was included in residential

SURVEY OF CURRENT BUSINESS

February 1981

capital, is now included in fixed nonresidential private capital. The revised capital estimates also incorporated a revision that affected the private nonresidential stock estimates by broad industry groups for all years. Investment in central administrative offices of manufacturing establishments, which was previously included in nonfarm nonmanufacturing stocks, is now included in manufacturing stocks. A summary statement of methodology appeared in the April 1976 Survey. The estimates of government-

owned fixed capital in the United States for 1959-79 are shown in tables 9-15. They also incorporate the revised NIPA estimates of government purchases of goods and structures that were described in the December 1980 Survey. The revisions mostly affect the estimates starting in 1968; estimates for 1925-58 were not revised. The 1925-58 estimates and a summary statement of methodology appeared in the March 1980 Survey. The estimates of government-

owned fixed capital shown in tables 9-15 include government-owned residential capital, which is also included and shown separately in the tables on residential capital.

A detailed statement of methodology for fixed capital stock in the United States will appear in a forthcoming volume that will present the stock estimates in greater detail. This volume is expected to be available for purchase in May 1981.
